

Replacement Arm  
for Heil® 7000

# GRAB THE ARM THAT BOOSTS YOUR PRODUCTIVITY

McNeilus grease zerks, heat-treated gears and tapered roller bearings drastically extend the life of replacement arm

At McNeilus, we understand your ongoing need to save time and increase productivity. Which is why we recommend replacing your original equipment Heil® 7000 universal and changeable grabber arm with the McNeilus® Street Smart Parts™ conversion kit. It features smooth, solid, easy operation. And it picks up 35 to 300 gallon cans without replacing the grabbers, thus reducing the chance for injuries, while at the same time increasing productivity.

In addition, Street Smart Parts delivers the rugged quality and construction you expect—like heat-treated gears and tapered roller bearings. The proven McNeilus grabber is found on thousands of automated units throughout the country. And you can watch it in action by visiting the go-to guys at [www.streetsmartparts.com](http://www.streetsmartparts.com), where you'll also see a variety of top-value replacement parts and assemblies for a wide range of brands. Or call your McNeilus Smart Parts rep at 877-PACK-MTM.
