

INCREASE PAYLOAD WITH OUR NEW LIGHTWEIGHT DRUM

- Save nearly 900 lbs compared to standard 3/16-inch drum
- AR450 abrasion-resistant steel shell
- Drum interior configured for optimal balance of thickness and longevity
- Available in patented M80 Series and standard M77 drums with both standard 42-inch and paver 46-inch openings
- Same mixing and pouring performance as our standard drum designs without the added weight
